

OutDoor DMB™

DMB

## NEW RELEASE HIGHLIGHTS

# DIGITAL MENU BOARD FAMILY

This release delivers powerful new capabilities across jackpot display control, data reliability, visual enhancements, and operational efficiency, helping operators deliver a more dynamic, resilient, and polished player experience.

InCounter DMB™

## FEATURES AND BENEFITS

- ✓ **New Monitor Support**  
Displays automatically on Schafer's digital products, using the same software as the current DMBs, enabling easy and seamless updates across all models through a single TMS.
- ✓ **Art & Visual Enhancements**  
Art assets have been updated and a new promotional frame labeled "NEW" has been added to highlight featured content.
- ✓ **Improved Game Management**  
New search option in the game dropdown list allows faster and easier game selection.
- ✓ **Operational Efficiency**  
Bin numbers are automatically renumbered when images use multiple grids, reducing manual setup and configuration errors.
- ✓ **Enhanced Jackpot Control**  
Centralized web-based control through TMS enables configurable jackpot display frequency and expiration timeouts for consistent jackpot presentation.
- ✓ **Jackpot Data**  
Centrally managed jackpot data powered by advanced display logic for Mega Millions® and Powerball®, designed to optimize sales and capture customer attention.
- ✓ **Secure Jackpot Safeguards**  
Automatic Jackpot Display Fail-Safe During Network Disruptions
