AVERAGE SALES INCREASE

BOOST VISIBILITY
LIGHT UP SALES

HALO drives instant ticket sales by illuminating new and existing on-counter ticket dispensers. Cut through the retail clutter with this modular and secure enhancement that pays for itself in a matter of weeks.

HALO with Dual 5" Adjustable Snap-together Modular Mini® dispensers. Shown in standard color BLUE
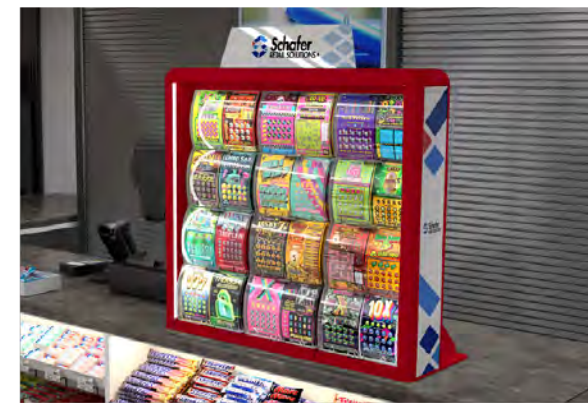

HALO with Gen2 Dual Bingo Snap-together Modular Mini ® dispensers. Shown in standard color RED

HALO with Gen 2 Dual 6" Snap-together Modular Mini® dispensers. Shown in standard color GREEN

ILLUMINATE YOUR LOTTERY OFFERINGS

"HALO" can be purchased in several combinations ranging from 4 to 72 games. HALO can be used with our Dual 5" Adjustable Snap-together Modular Mini® dispensers, Gen 2 Dual Bingo Snap-together Modular Mini® dispensers, Gen 2 Dual 6" Modular Mini® dispensers and even our first generation of Dual Snap-together 6", 4" and Bingo Modular Mini® dispensers.

Create that visual impulse purchase by placing the voided display cards in the front of the dispensers to make it easy to capture the players attention – DRIVING your lottery's revenues.

VERSATILITY is HALO's middle name as it can be added to almost any dispenser configuration including those dispensers that retailers already have out in market. Schafer Retail Solutions+ can also pre-configure the entire unit in-house to ship as an out of the box retail setting.

easyVend™

easyVEND™ simplifies the process for players to purchase and for retailers to sell instant lottery games in multi-lane retail settings like grocery stores, discount chains, pharmacies, and more. This merchandising solution features a streamlined display that shows key games offered for sale right in lane. Scratch off tickets are conveniently and securely stored within reach to the cashier to ensure a quick and efficient checkout process alongside other customer items.

WHY CHOOSE easyVend™

Ease of use - easyVEND™ enables the sale of four scratch games in-lane, encouraging impulse buys. Customers can easily add these games to their basket and complete the transaction at the POS, just like any other product ready to be scanned and paid for.

Increased Sales- Double digit sales increases have been recorded where the product is in use at the Texas Lottery.

Security- The tickets are securely stored in a steel-manufactured locked dispenser cabinet, which can also be bolted to a shelf under the counter, keeping them out of the customer's line of sight.

Accountability- Sales data is tracked both internally through the retailer POS system and also through the Ticket Management System (TMS) portal that Schafer provides access to with automated and customizable reporting.

• **Customer Support -** Multiple Service/Support options are available.

ILLUMIBOARD

Introducing IllumiBoard, a revolutionary display solution transforming ticket showcasing with custom-formed clear display windows for instant lottery display cards. Simplifying customer ticket selection, its vibrant frame, versatile mounting options, and illuminated components enhance visibility. Offering landscape and portrait configurations, easily changeable headers, and modularity, Illumiboard sets a new standard for instant ticket awareness, empowering retailers to drive sales.

STANDARD FEATURES:

• Customizable orientation to suit client preferences
• Injection molded for high quality
• Designed with versatile mounting options
• The display fixture features clear material for enhanced visibility and easy updating or changing of display cards.
• Accommodates display cards measuring up to 4"x4"
• Modular design facilitates easy customization and expansion of offerings
• Highlights and showcases lottery instant products across various retail locations, boosting customer awareness

easySELECT™

In the market, easySELECT™ has proven to attract new players and deliver benefits to the lottery, resulting in both new and increased revenue. The bright LCD touch screen displays full ticket graphics and creates an interactive play of the ticket once the purchase is completed.

Sales reports are available through a central web portal and can be customized specifically for your lottery.

MAGNETIC LITERATURE HOLDER

This 10-Pocket Literature Holder combines practicality with high visibility for your lottery informational brochures and play slips. This holder is customized with lottery branding. There are two areas for changeable point-of-sale that can also be permanently printed.

Ten large literature pockets feature clear "tongues" to help hold your lottery play slips or brochures in place and keep the holder neat and tidy.

Four magnets are placed on the back to strongly hold the literature holder to vending machines or other metal surfaces without slippage.
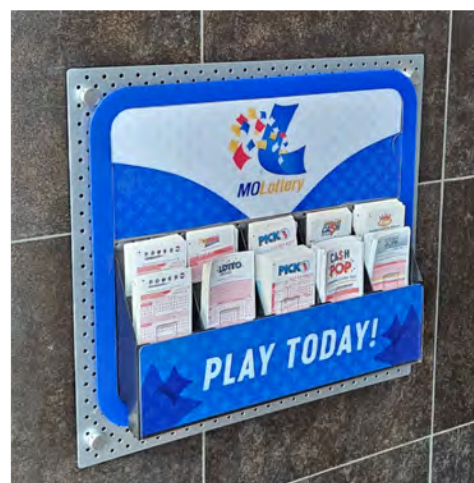

This literature holder is also versatile to fit in other areas of the retail location such as shown below. Don't let your lotteries merchandise become untidy or disorganized; call out your lottery brand and provide your retailer with a clean fresh look for their lottery slips and brochures.

easySERV™

easySERV™ is a compact, sleek self-service vending solution designed to integrate into a retailer's self-checkout area. The unit streamlines operations by dispensing instant tickets via codes generated at the retailer's POS, with payment and age verification handled at the checkout. The unit connects through Wi-Fi or ethernet for real-time inventory tracking and reporting, ensuring efficient back-office management. With customizable branding options, easySERV™ enhances brand visibility and encourages impulse purchases by making instant tickets available in areas where they are not traditionally sold. The robust, secure construction supports loss prevention, while its user-friendly interface guides customers through a seamless dispensing process. The unit features four ticket drawers, providing reliable and efficient ticket delivery to elevate the self-service experience.

Removable Divider

The patented GEN2 Modular Mini dispenser product line is designed to enhance ticket sales and merchandising in a variety of retail environments. These versatile dispensers feature a removable divider panel, allowing users to effectively showcase either 4-inch wide or 8-inch wide tickets. This adaptability ensures that retailers can easily customize their displays based on the types of tickets being offered, providing flexibility to meet customer demands. The modular design means that these dispensers are compatible and interchangeable, allowing for easy integration into various retail markets.

DUAL 5" ADJUSTABLE SNAP-TOGETHER MODULAR MINI®

The Dual 5" Adjustable Snap-together Modular Mini dispenser is a popular solution for the flat loading and dispensing of instant tickets. This dispenser has built-in front clips that securely hold a 4" x 4" voided ticket card that accompany each book of tickets from lotteries. This thoughtful design element ensures that voided cards are easily visible, neatly organized and provides a clear visual for customers looking for game choices.

In addition to its main features, the Dual 5" dispenser is equipped with an attachment clip that enhances side-to-side stacking stability. The Dual 5" Adjustable Snap-together Modular Mini dispenser offers durability and reliability, making it well suited for fast-paced retail environments. Its adaptable design not only meets the needs of retailers but also provides customers with an appealing way to offer choices for purchasing of instant tickets.

AFTER GLOW

After Glow panels are colored material used to enhance the appearance of Modular Mini Dispensers by creating a striking lighted or illuminated effect without the need for electricity. This unique addition transforms the look of dispensers, making them visually appealing and attention-grabbing in any retail setting.

The After Glow panels are easily attached using a strong, aggressive tape, ensuring a secure fit that can withstand the rigors of daily use. These panels can be for any size of Modular Mini Dispenser, providing a tailored solution that meets various merchandising needs.

By incorporating After Glow to your ticket dispenser displays businesses can create a captivating shopping experience that draws in customers and highlights their ticket offerings.

Dispenser stands are an effective solution for elevating your ticket dispensers in retail environments, addressing a challenge posed by cluttered counter spaces.

Placing dispensers at a higher elevation brings them to eye level, which is particularly important for encouraging impulse purchases. When customers can easily see what the ticket offerings are without having to navigate through other products, they are more likely to make spontaneous buying decisions.

SECURITY PRODUCTS FOR DISPENSERS

Adding security products such as security shields and security doors to ticket dispensers enhances the protection of instant tickets, addressing potential theft and unauthorized access. These security features are essential for safeguarding valuable inventory, especially in retail environments where instant tickets are susceptible to "reach around" snatch and grab incidents.

Security shields further enhance the protection of the dispenser, creating an additional layer of defense against potential theft or tampering. These shields can help deter would-be thieves by making it more difficult to access the tickets without proper authorization.

Security Shield Top Panel-Dual

Security Shield can be added to any Modualar Mini® configured dispensers.

SECURITY DOORS

Security doors are designed to provide a robust barrier that restricts access to the tickets within the dispenser, ensuring that only authorized personnel can reach the contents. This is particularly beneficial during times when dispensers may be unattended, such as during shift changes or periods of high customer traffic, where the risk of theft increases. By securing the tickets behind these doors, retailers can minimize the likelihood of inventory loss and maintain accountability over their stock.

Security doors available for most single and dual modular mini® dispensers.

NUMBER CLIPS, NUMBER STICKERS & PROMOTIONAL CLIPS

Help identify your games and simplify merchandising with number clips, number stickers or promotional clips in Ticket Menu Boards, In-Counter Dispensers and other merchandising displays. Number clips are dual-sided and can clip on top, sides or bottom on display cards.

Wall Mount Applicator

SINGLE WALL MOUNT

DID YOU RUN OUT OF COUNTERSPACE?

Wall mount dispensers offers a means of other placement of instant tickets at retail. The single wall mount dispenser is a versatile unit designed for displaying and dispensing tickets in a compact format. This unit is specifically designed to be mounted on different types of wall surfaces to maximize the use of vertical space.

While the single wall mount dispenser is a standalone unit, it offers the unique ability to attach to itself creating a larger display, by linking multiple dispensers together it effectively showcases a diverse range of ticket offerings and promotes sales.

Security doors can be added to many Schafer Retail Solutions + instant ticket dispensers including Promoters®, Promoters® with Ticket Menu Boards and In-Counter dispensers.

EXPRESS 4™- IN LANE SOLUTION

Multi-Lane retail environments have emerged as the next frontier in lottery sales growth. By making it easy for players to find and purchase lottery, and for retailers to carry and sell these products, lotteries can propel Scratch-Off ticket sales to new heights. The Express 4™ In-Lane ticket dispenser features an integrated display of instant tickets with a retractable locking cover to facilitate secure sales, as well as serving to improve the ticket merchandising. Placement of the Express 4™ dispensers presents an exciting opportunity for lotteries to tap into new markets.

This product in test markets showed a 10.5% lift in instant ticket sales.

Terminal Point-of-Sale without storage shelf

Literature holders are essential tools in merchandising game offerings that lotteries aim to promote, effectively engaging players and enhancing their experience. Available in a variety of sizes, these holders can accommodate multiple informational materials tailored specifically to your needs and requirements.

They offer versatile mounting options, including counter mounting, wall mounting, and even magnetic units that can adhere to the sides of vending machines, providing flexibility in placement and accessibility. Additionally, branding opportunities are available to ensure the literature holders align with your promotional efforts, while the use of clear, unbreakable tongues prevents sagging and curling of the displayed slips, maintaining a professional appearance and ensuring that the information remains easily visible to potential customers.

Convenience is a crucial factor in how customers make decisions about what to buy, what games to play, and "how to play" information for specific games is readily available. Engaging your customers with a place to make those types of decisions with a specialized play area provides the customer service and experience our players have grown to expect. Multi-User Game Stations, Play Centers, Mini Kiosks, Mini Centers and Scratch and Win units all provide areas for player convenience.
